

THE FUNNI BROCHURE

This brochure lists the details pertaining to the FUNNI MANN.

- An active adult's daily recommended sugar intake is around 90 grams. Assuming the contents of Bonk! Atomic Punch are as advertised – the drink is said to contain several hundred times the daily recommended amount – the can of Bonk! would weigh at least 9 kilograms (20 pounds).
- According to the [Caffeine Cooler](#)'s description, each can of Bonk! has 4000% of the recommended daily intake of caffeine (400 mg), meaning its total caffeine content is 16,000 mg per can.
